

Mentor Handout 4.5: Knowledge organiser

Use this knowledge organiser to collate a collection of powerful analogies, illustrations, examples, explanations and demonstrations that you can use in your teaching. You should at least partially complete it in advance of Mentor Session 4.5.

You might collect these from:

- Observations of other teachers (such as during Self-Study Activity 4.5)
- Asking colleagues in your department, phase team or wider faculty
- Textbooks
- Resources, such as lesson plans created by other teachers
- Wider networks.

Context: What subject / topic / year group / class was this from?	Type: Was it an analogy, illustration, example, explanation, demonstration, resource?	Content: What was the new content being explained through it?	A summary of the powerful example: Write it, draw it, bullet points or narrative!	What made it so powerful?

Context:	Type:	Content:	A summary of the powerful example:	What made it so powerful?
